National Liaison Officers /

National Coordinators

2026-03-02

Subject: Nuclear Law Institute (NLI), Vienna, Austria, from 29 November to 11 December 2026

Dear National Liaison Officer / National Coordinator,

I am pleased to inform you, that the International Atomic Energy Agency (IAEA) is organizing the above event under the IAEA technical cooperation project INT0105, "Establishing and Enhancing National Legal Frameworks in Member States, Phase II".

An adequate national legal framework is an essential element for the safe, secure and peaceful use of nuclear energy and ionizing radiation. Through Technical Cooperation (TC) project INT0105, legislative assistance is provided to Member States, upon request, in: (1) raising awareness of decision makers, policy makers and senior officials of the elements of comprehensive legislation and the importance of treaty adherence; (2) conducting workshops on nuclear law (national, subregional and regional) with the aim of increasing the officials' understanding of international and national nuclear law; (3) reviewing draft and existing enacted legislation, followed by bilateral discussions; and (4) capacity building, such as the training of officials in nuclear law. The Nuclear Law Institute (NLI) provides a two-week's intensive training for up to sixty lawyers and senior regulators from Member States in Africa, Asia, Europe and Latin America and the Caribbean on nuclear law, with a focus on the drafting of national legislation. This programme serves as a key capacity-building initiative, responding to the demand of Member States for expertise in the legal framework for the safe, secure and peaceful uses of nuclear energy and ionising radiation, as well as support in drafting of national nuclear legislation.

The attached Information Sheet provides further details, including technical and administrative aspects of the event. Selection of participants will be in accordance with IAEA procedures. Member States are strongly encouraged to identify women participants.

We would appreciate receiving your country's nominations by **17 May 2026** through the IAEA's InTouch+ platform (<https://Intouchplus.iaea.org>). Please be advised that late nominations or replacements of participants after the closing date for nominations will not be accepted.

We look forward to receiving your early response.

Yours sincerely,

Mickel Edwerd
Programme Management Officer
Division for Africa
Department of Technical Cooperation
