

Russian Federation–IAEA Advanced Nuclear Energy Management School

Hosted by the

Government of the Russian Federation

through the

Rosatom Technical Academy

Moscow, Russian Federation

22 June to 26 June 2026

Ref. No.: EVT2503919

Information Sheet

Introduction

Recognizing that the management of nuclear energy facilities over their lifecycles is challenging and complex, and that it requires both technical and managerial knowledge specific to the nuclear sector, the International Atomic Energy Agency (IAEA) has developed the Advanced Nuclear Energy Management School (hereinafter referred to as ‘event’) programme, which focuses on the managerial and leadership competencies that are required to support, lead and implement national nuclear energy programmes.

This is a one-week learning event designed to enhance leadership and management competencies essential to supporting nuclear infrastructure development in countries considering, embarking on, or expanding national nuclear power programmes. The event is aimed at providing senior leaders and managers in the nuclear sector with knowledge and understanding of some of the key issues and challenges associated with the management and leadership of nuclear energy programmes. This will be done through providing a broad international perspective coupled with the IAEA’s specific knowledge on areas such as nuclear infrastructure development, workforce planning for nuclear organizations, nuclear safety, security and safety culture, principles of stakeholders’ involvement and public communication for nuclear technology and similar.

As a pre-requisite for the event, every nominee is asked to enrol and complete a pre-training course and pass the test on the IAEA’s Cyber Learning Platform for Nuclear Education and Training (CLP4NET) in order to be considered for the final selection.

The format of the event includes presentations, panel discussions, case studies and informal networking activities.

Objectives

The purpose of the event is to provide young nuclear professionals with specialized education and training on the development and implementation of knowledge management programmes in nuclear organizations.

Target Audience

The event is intended for senior managers and leaders working in the nuclear sector or entering the nuclear sector.

Presentation sessions, panel discussions, and case studies will be organized during which participants are expected to actively contribute by sharing information on their experience, national practices and challenges in the area of developing, expanding and managing national nuclear programmes.

Applicants should have an appropriate technical background with an adequate understanding of nuclear fundamentals and solid managerial experience of working either in the government, nuclear education, or the nuclear sector.

Working Language(s)

English

Expected Outputs

The event will cover a range of specific subjects related to managing and leading national nuclear energy programme, and will include lectures, panel discussions and case studies.

Participation and Registration

In order to be designated by an IAEA Member State or invited organization, participants are requested to submit their application via the InTouch+ platform (<https://intouchplus.iaea.org>) to the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) or organization for onward transmission to the IAEA by **20 April 2026**, following the registration procedure in InTouch+:

1. Access the InTouch+ platform (<https://intouchplus.iaea.org>):
 - Persons with an existing NUCLEUS account can sign in to the platform with their username and password;
 - Persons without an existing NUCLEUS account can register [here](#).
2. Once signed in, prospective participants can use the InTouch+ platform to:
 - Complete or update their personal details under ‘Complete Profile’ and upload the relevant supporting documents;
 - Search for the relevant event under the ‘My Eligible Events’ tab;
 - Select the Member State or invited organization they want to represent from the drop-down menu entitled ‘Designating Authority’ (if an invited organization is not listed, please contact InTouchPlus.Contact-Point@iaea.org);
 - If applicable, indicate whether financial support is requested and complete the relevant information (this is not applicable to participants from invited organizations);
 - Based on the data input, the InTouch+ platform will automatically generate the Participation Form (Form A) and/or the Grant Application Form (Form C);
 - Submit their application.

Once submitted through the InTouch+ platform, the application, together with the auto-generated form(s), will be transmitted automatically to the required authority for approval. If approved, the application, together with the applicable form(s), will automatically be sent to the IAEA through the online platform.

NOTE: The application for financial support should be made, together with the submission of the application, by **20 April 2026**.

For additional information on how to apply for an event, please refer to the [InTouch+ Help](#) page. Any other issues or queries related to InTouch+ can be sent to InTouchPlus.Contact-Point@iaea.org

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and technical matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. The IAEA may also use the contact details of Applicants to inform them of the IAEA's scientific and technical publications, or the latest employment opportunities and current open vacancies at the IAEA. These secondary purposes are consistent with the IAEA's mandate. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.

Visas

Participants who require a visa to enter Russian Federation should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of Russian Federation.
